## Storage With Style

Remodeled by Orfield Design & Construction Inc., St. Louis Park

BY STAFF

The owners of this 1906 Minneapolis home wanted a place to eat in the kitchen, a large area to prepare and cook meals and more storage space. A new wood floor, flat-panel maple cabinets, a Cambria countertop, recessed, pendant and undercabinet lighting and Marvin wood windows were installed, along with a hand-milled base and casing to match the home's existing 1920s woodwork. The new, floor-to-9-foot-ceiling pantry with key drop-in area further enhances the storage and appearance of this vibrant kitchen.
